

## MODEL D-53HE2

PALLET STRAPPING MACHINE

---

## Features

- Easy height adjustment
- Simple Operation
- Battery operated model also available

# MODEL D-53HE2

## PALLET STRAPPING MACHINE

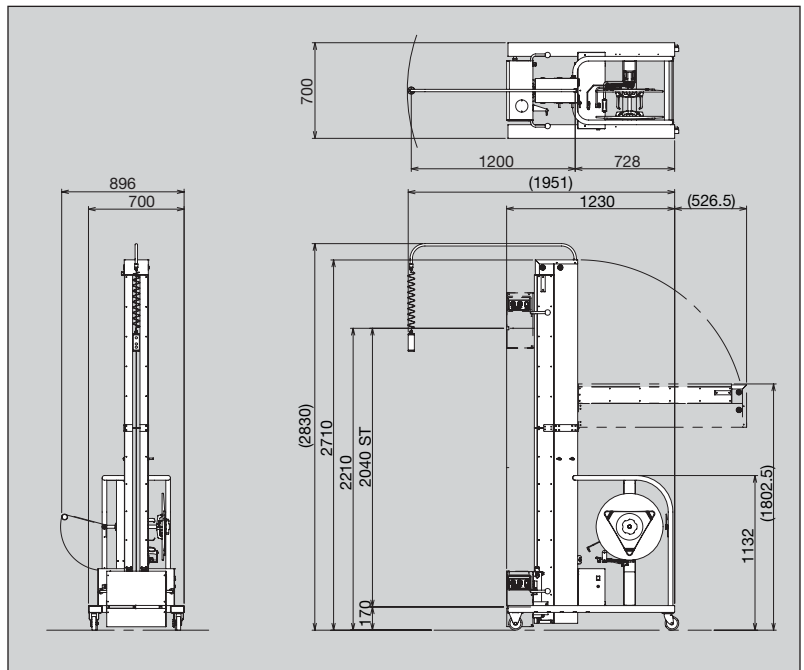

### Standard Features

- **Easy Height Adjustment**  
Strapping height is quickly adjusted through the easily operated counterbalance that moves smoothly and effortlessly to the desired strap location.
- **Simple Operation**  
The innovative pendant switch allows operation of the machine from either side of the load while enabling the operator to control the feeding, tensioning and sealing of the strap with one hand.

Operator control makes positioning of the strap and/or the placement of corner protection an easy task.
- **Battery operated model is also available.**
