

MODEL D-53XS

Semi-Automatic Stainless Steel Strapping Machine

Features

Body is primarily constructed from stainless steel.

Internal components are made of stainless steel or steel with a rust resistant coating.

Bottom Seal application

Ideal for low volume applications in food and medical industries

Model D-53XS

Semi-Automatic Stainless Steel Strapping Machine

Product Features

The D-53XS is perfect for low volume applications in food and medical industries where sanitation and minor moisture exposure is a concern. The D-53XS is a bottom seal model which boasts a stainless steel body.

The critical components such as the cutters and rollers are composed of stainless steel in order to withstand water exposure. All external screws and fasteners are stainless steel.
