

## MODEL D-53

### Semi-Automatic Strapping Machine

---

## Features

- Can be used with 6mm (1/4") to 15.5mm (5/6") strapping
- Tension range can be limited in order to prevent package damage
- Tension is easily adjustable by a single dial
- Heater requires only 30 seconds to reach operating temperature

# Model D-53

## Semi-Automatic Strapping Machine

---

### Standard Features

Utilizing two DC direct drives, the D-52 was the first beltless tabletop strapping machine. The D-53 is the second-generation version of this design. The microprocessor has been upgraded to improve tension control and tolerate voltage fluctuations.

Tension is applied with a 6mm diameter steel wheel allowing application of high tension without scuffing the strap. Tension is easily adjusted from 4.4 lbs to 100 lbs making the D-53 a versatile strapping machine.

### Specifications

Machine Dimensions	780mm W x 775mm H x 556mm D (30 1/16" W x 30 1/2" H x 21 3/4" D)
Weight	50 kg (110lbs)
Table Height	750mm (29 9/16")
Min Package Size	100mm W x 30mm H (3 15/16" W x 1 1/4" H)
Strap Width	5,6,9,12,15.5 mm (1/4, 3/8, 1/2, 5/8")
Power Supply	100, 220, 240 V 1 phase 50/60Hz 0.4KVA
