

MODEL P205

Semi-Automatic Tabletop Strapping Machine

Features

- High Tension Capability
- Heavy Duty Seal Engine
- Open Frame Design
- Welded Tube Frame
- Adjustable Table Height
- Electronic Tension Control
- Seal Cooling Delay Control
- Adjustable Strap Feed Length
- Additional Pushbutton Feed
- Pushbutton Strap Reverse
- Pushbutton Cycle Reset
- 110 Volt Electrical
- Energy Saving Mode
- Reliable PC Board Control
- Locking Casters
- Package Stops
- Easy to Maintain
- Maintenance Mode Cycle Jog

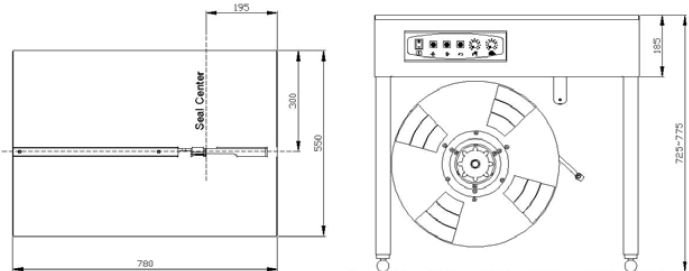

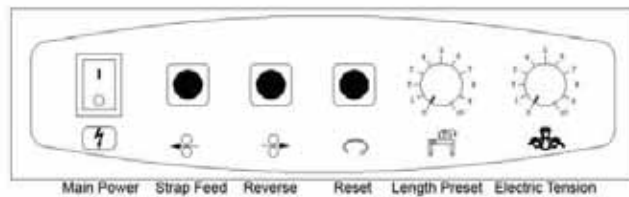

Model P205

Semi-Automatic Tabletop Strapping Machine

The P205 is the most versatile Table Top Strapping Machine in its class. The heavy duty seal engine is an innovative new design that can produce more tension than comparable machine models. The electric tension and strap weld controls are similar to those found on much higher priced automatic machines. The temperature and cooling delay can be set to allow for precise results with most polypropylene and polyester strapping. This portable 110 volt machine comes with adjustable table height and locking casters. The reinforced welded steel frame and table top will hold up in very demanding applications. The controls are simple to use and allow for quick, precise strapping to any product fitting its application range. The external electrical tension dial can be easily changed to apply the desired tension. The strapping will feed out a pre-determined amount after each cycle is completed. A simple dial adjustment will set the length, and repeat each time. Additional strapping can be dispensed by activating the strap feed pushbutton. A reset pushbutton returns the machine to its starting position.

P205 Specifications

Strapping Speed	2.5 Second Cycle Time
Minimum Package Size	3" Wide x 1" High
Maximum Package Size	Unlimited
Maximum Package Weight	100 lbs
Strapping Width / Core Size	1/4", 3/8", 1/2", 5/8" (8X8 or 9X8)
Table Height	Adjustable 28.5"-30.5"
Tensioning Range	5-120 lbs
Power Supply	110 Volt, 1 Phase
Machine Weight	140 lbs
Shipping Weight	175 lbs
Machine Dimensions	Length 30.7" (780mm) Width 21.7" (550mm) Height 28.5"-30.5" (725-775mm)
