

## MODEL RQ-8IR3

HIGH SPEED & COMPACT MODEL FOR PRINTING AND MAILING INDUSTRY

---

### FEATURES

- Newly designed special high-speed sealing head can achieve 60 bundles per minute
- Integrated foot pedal under the body provides hand free operation
- Easy installation and operation
- Single dial provides a wide range of tension for all packages
- Takes only 25 seconds to reach operating temperature
- Self Diagnostic mechanism monitors critical functions and any irregularity detected is immediately displayed

## MODEL RQ-8IR3

HIGH SPEED & COMPACT MODEL FOR PRINTING AND MAILING INDUSTRY

### Standard Features

The newly designed special high-speed sealing head can achieve 60 bundles per minute without compromising on the tension strength.

Integrated foot pedal under the body as well as internal reel assures a safe operation.

The handles on both sides of the machine body together with oversized casters make the machine easy to maneuver in a limited space.
