

MODEL RQ7000

Automatic High Speed Strapping Machine

Features

- Capable of strapping up to 60 bundles per minute
- Space efficient reel unit design slides in and out of the body cabinet, making strap coil loading easy.
- Machine will automatically eject any remaining strap from inside the machine the coil runs out
- Exclusive tension motor eliminates wear parts such as the interlock shaft, the tension belt, and the pulley
- Electromagnetic reel brake stops reel rotation, replacing the mechanical brake
- Ready to operate in less than 20 seconds

Model RQ7000

Automatic High Speed Strapping Machine

Product Features

The high-speed sealing head can strap up to 60 bundles per minute without sacrificing any strap tension.

This space-efficient Reel Unit design simply slides out from the inside of the body cabinet making strap coil loading easy. The reel rotation is stopped by an electro-magnetic Reel Brake instead of a mechanical brake.

When the strap coil runs out, the machine will automatically eject any remaining strap from inside the machine saving the operator the time and hassle of clearing out the strap by hand.

The exclusive Tension Motor eliminates wear parts such as an interlock shaft, tension belt and pulley for maintenance free performance.

Specifications

Min. Bundle Dimensions	W 80 mm x H 30 mm (W 3 1/8" x H 1 1/8")
Machine Weight	180 kg (400 lbs)
Table Height	850mm (33 1/2")
Tensioning Range	Up to 40 kg (88 lbs)
Strapping Speed	Up to 60 straps per minute
Strapping Used	5,6,9,12mm (1/4, 3/8, 1/2 inches)
Power Supply	100-120, 220-240V Single Phase
Arch Size	W 650 mm x 500 mm (W 25" x H 20")
Machine Dimensions	W 984mm x H 1459mm x D 609mm (W 38 3/4" x H 57 1/2" x D 24")
